All orders ***must*** be received no later than March 15, 2010. Your order is not complete until payment is received. Payment may be made by Paypal or you may pay by personal check or money order by sending to Faraway Flowers, 9 Pleasant Avenue, Cape Elizabeth, Maine 04107. If paying by check or money order please allow for mailing time.

Prices are subject to change. **Our pricing is dependent upon foreign currency exchanges. Due to the current volatility of currency values, it is recommended that you shop early.** Your prices are good for two weeks (14 days) from the time you complete your order. If payment is not received, your purchases are subject to any price increases that may occur. Sorry, but I cannot absorb currency exchange increases throughout the season. To guarantee prices, simply pay within two weeks.

Your Faraway Flower bulbs are top quality! They are held in precisely temperature controlled conditions until shipped. You can expect to receive nice firm bulbs and good roots. We guarantee them to be true to name. Your satisfaction is important to Faraway Flowers! Please let us know if you are unhappy for any reason.

SHIPPING

Rates are based on **US Priority** Mail delivery to postal addresses throughout **Mainland USA and Alaska only; we do not ship to Hawaii**. The Priority Mail system is the most economical method of shipping to you in a timely manner. All packages will be shipped with a delivery confirmation. Multiple deliveries may incur additional postage charges. If you place separate orders to be shipped together, ***please contact us so we may adjust your shipping.***

Bulbs can be shipped in early March or Mid April. We cannot ship later. Sorry, but our bulbs will be ready for delivery at this time. Holding them will only decrease their potential.

Please remember that your bulbs will be traveling from Faraway places. It is common for some bulbs to sprout during shipping due to higher temperatures they incur. Please be prepared to plant immediately upon receipt or refrigerate. Because lily bulbs are never truly dormant, we cannot accept returns. If you are not completely pleased with your order, please contact us at:

	SPECIES			
L canadense	The Canada Lily (Meadow Lily). Rarely seen for sale. These are, as typical for species bulbs, small. Color and variety is not guaranteed but all forms are hard to find. Grows in moist meadows, ditches or along river banks from North Carolina to Canada. Requires acidic, moist but well drained location. Grows from 2 to 5 feet tall, producing reflexed bell shaped flowers. Rhizomous growth produces bulbs which will flower the following season. Acquired from cultivated stock -- not from the wild.	\$18.00	\$50.00	N/A
L cernuum album	The Nodding Lily. This is the off white form. 12-24 inches tall. Grown from cultivated stock -- not from the wild.	\$9.00	\$24.00	N/A
L Specipsum var rubrum	The gracefull Turksap flowers of speciosums are produced in mid/late August, long after most other lilies have finished, easy to grow. All have a very delicate perfume, can grow up to about 48 inches tall. Large 20 cm bulbs	\$7.00	\$20.00	\$30.00
L auratum Gold Band	This is a spotted form of the Oriental species, that was originally from Japan. Tall reasonably strong stems up to 5 feet tall large white flowers with a broad golden yellow stripe, heavily spotted and very nicely scented. 20 cm bulbs	\$7.00	\$20.00	\$30.00
	<p>KUSHI MAYA</p> <p>Hornback Award Winner for best hybridizing advancement and the Hod Hoepner Award for best potted lily at the 2009 North American Lily Society Annual Convention Extremely limited in availability</p> <p>If you can imagine a <i>Lilium nepalense</i> that grows over 4 feet tall, with stems that will never bend and flowers some 10 inches across, then you can imagine 'Kushi Maya'.</p> <p>She is something of a chameleon. By day her flowers have the same sweet perfume of her Oriental parent, but in the evening her other side takes over, filling the air with the unmistakable scent of <i>L. nepalense</i>. The plants are extremely vigorous, multiply quickly and are hardy. During trials we have subjected the bulbs down to temperatures of minus 4° F. Easy to grow, in well drained soil.</p> <p>Kushi Maya is an exclusive offering of H.W. Hyde & Son and there are only 200 available in the world at this time.</p> <p>It is a hybrid between <i>Lilium nepalense</i> and an Oriental Hybrid lily.</p> <p>Kushi Maya is strictly protected by Plant Breeder Rights and cannot be propagated for commercial purposes.</p>	\$125.00
