

MEMBERSHIP COMMITTEE REPORT Directors' Meeting, July 13, 1972

We have selected a committee. The following are members:

Fred Hayes
Cliff Hannum
Joe Mattas

Ginny Howie
Donna Cutts
Dave Stone

During the year we have collected ideas and suggestions from committee members and others, *and information on other plant societies.*

There will be a meeting of this committee tonight at 8 p.m. to do the following things:

1. a. Discuss all suggestions made by committee members and others.
b. Determine ways to implement those which will be most productive.
2. To set up an organized campaign for new members.
I know that individually you have all been giving this your serious attention in thought and deed this past year. The committee asks you to continue this.
3. We suggest that NALS push sustaining memberships as well as regular memberships. If the listing of new types of memberships as suggested by Julius Wadekamper is accepted then push Contributing Memberships.

We welcome any further ideas you may have on increasing the membership for the committee meeting tonight.

Respectfully submitted,

Muriel L. Happich

Muriel L. Happich, Chairman
